

Notice to the Market - 05/20

Dispatch of the Araucária Thermal Power Plant

Companhia Paranaense de Energia - COPEL, a company that generates, transmits, distributes and sells power, with shares listed on B3 (CPLE3, CPLE5, CPLE6), the NYSE (ELPVY, ELP) and the LATIBEX (XCOP), hereby announces to its shareholders and the market in general that the Araucária Thermolectric Plant was activated on March 8, 2020, according to the schedule for the operational week of the National System Operator (ONS).

The dispatch order is part of the exceptional measures adopted at the meeting of March 4, 2020 by the Electric Sector Monitoring Committee (CMSE) for the recovery of hydroelectric reservoirs in the southern region of the country. The plant's remuneration, therefore, will be based on the Variable Cost per Unit - CVU approved by the Brazilian Electricity Regulatory Agency - ANEEL, in the amount of R\$ 681.79/MWh.

Weekly, the CMSE will verify the need to maintain the measures. The TPP Araucária has installed capacity of 484 MW, the combined cycle power plant is one of the most efficient in the country.

Curitiba, March 09, 2020.
