

## Sustainability Report

Rio de Janeiro, April 29, 2024, Centrais Elétricas Brasileiras S/A – Eletrobras informs that it disclosed, on this date, its annual sustainability report - Annual Report 2023. The document is the main source of ESG (Environmental, Social and of Governance) information of the company and also presents data on economic and operational performance.

The report monitors 124 different indicators, 24 of which are General Content and SDGs - United Nations (UN) Sustainable Development Goals, 19 are Governance, 25 are Prosperity, 26 are Planet and 30 are People. It presents an overview of the main results of 2023, which were achieved respecting sustainable development and our corporate vision of being an innovative clean energy company, recognized for its excellence and sustainability.

Aimed at all Eletrobras stakeholders, the report was prepared in accordance with the best global management and reporting practices for corporate sustainability, such as the guidelines of the Global Reporting Initiative (GRI), Integrated Reporting (IFRS Foundation) and the principles of the Global Compact and the Sustainable Development Goals (Agenda 2030/SDG), being assured by an independent external audit, including analysis of adherence to the GRI guidelines and criteria.
