

Petrobras on production record in Búzios

Rio de Janeiro, June 29, 2020 – Petróleo Brasileiro S.A. – Petrobras reports that the platforms (P-74, P-75, P-76 and P-77) installed in the Búzios field, in the Santos Basin pre-salt, reached new production records on the 27th of this month, of 664,000 barrels of oil per day (bpd) and 822,000 barrels of oil equivalent per day (boed).

The Búzios field, discovered in 2010, is the largest deep water oil field in the world. It is a world-class asset with substantial reserves, low risk and low lifting cost.
