

Notice to the Market

Banco Bradesco S.A. ("Bradesco") announces that, for the 16th consecutive year, it has been selected for the B3 Corporate Sustainability Index ("ISE").

Created in 2005, ISE is a reference in Brazil for promoting responsible investment and good practices in corporate sustainability. The index comprises companies with high liquidity stocks on B3 that present the best performance in environmental, social and governance (ESG) aspects.

The 2021 ISE portfolio will be effective from January 4 to December 30, 2021 and will cover 39 companies, from 15 sectors, whose market value is R\$ 1.8 trillion, equivalent to 38% of the total value capitalization of B3 stock market.

In this edition, Bradesco's performance stands out in topics such as Management of Economic Performance, Respect for Information Privacy, and Climate Reporting.

Integrating the index, since its creation, reinforces Bradesco's mission to contribute to sustainable development through the incorporation of ESG aspects into its business strategy, generating long-term value for its customers, shareholders, employees, as well as society in general.

Additional information about ISE is available at iseb3.com.br.
