Environmental, Social and Governance (ESG)

ODS

Main Actions:

Usiminas doubled the number of women in leadership positions since 2019.

Recovery of about 500 kilometers of rural roads in 2020.

Start of implementation of the Dry Stacking and Filtering project, with conclusion scheduled for 2Q21.

Support of R\$27 million in measures to prevent COVID-19 by Usiminas/FSFX.

Environmental, Social and Governance (ESG)

ODS

Diversity and Inclusion: 10% of **women** in the company's **Industrial area** by 2022;

Goals:

Occupational Safety: Recorded accident frequency rate of 1.0 or less;

CO2 / Energy: Conducting GHG emission inventories in 2021; and participation in the CDP (Carbon Disclosure Project);

Migration of waste disposal for **filtering** 2021; Dams: in and mischaracterization of the Central dam in 2022.

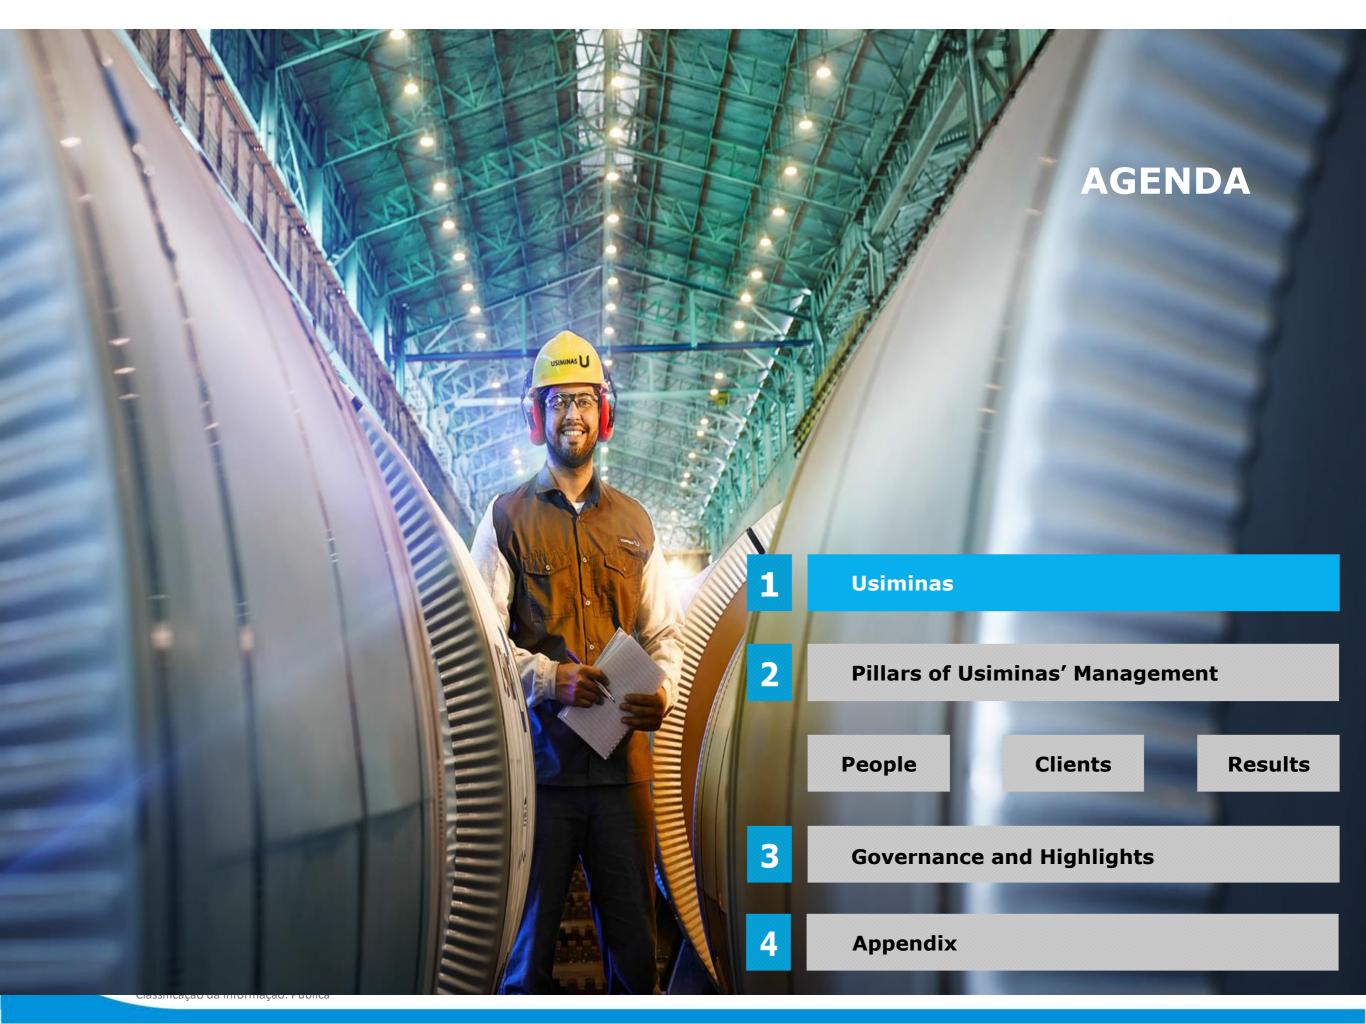

Institutional Presentation

4Q20 and 2020

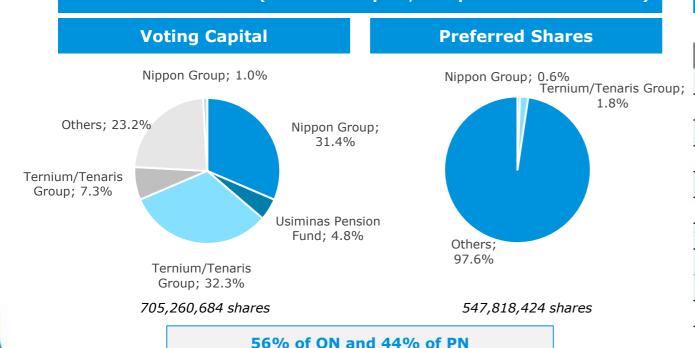

Usiminas at a Glance

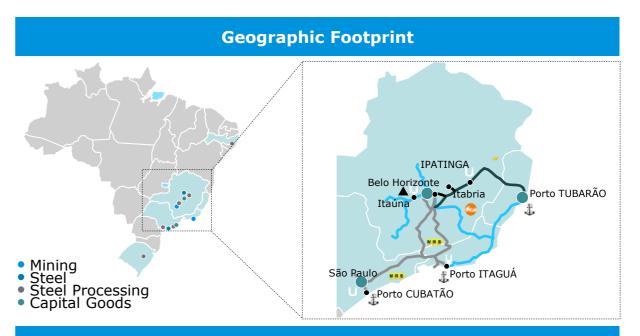

Company Overview

- ✓ Usiminas is one of the largest flat steel producers in Brazil, with operations in several segments of the value chain, such as mining and logistics, capital goods, service and distribution centers and customized solutions
- ✓ Two steel plants strategically located along Brazil's main industrial axis, with sales force present in the main regions of the country
- ✓ First Brazilian steel company certified by ISO 9001
- ✓ Founder of the most enduring environmental education project in the private sector since 1984

Complete Solutions on Products and Services

Upstream Downstream

Mining

Mineração Usiminas

- JV formed in 2010 through a partnership with Sumitomo Corporation
- Responsible for the mining operations, in addition to rail and port transportation
- Three iron ore plants at Serra Azul
- Also has pellet and sinter feed processing plants
- Concluded investments that will expand the current capacity to 12mm tons/year

Steel

Ipatinga | Cubatão | Unigal

- One of the largest producers of flat rolled steel in Brazil
- Two industrial plants in Ipatinga (MG) and Cubatão (SP)
- Nominal capacity for producing
 9.5 million tons of raw steel per annum
- Also holds Unigal Usiminas, a JV with Nippon Steel responsible for steel hot-dip galvanizing activities, enhancing the technology content within Usiminas' steel

Steel Processing

Soluções Usiminas

- Created in 2009, Soluções
 Usiminas has a wide portfolio of
 products and services in the
 transformation and distribution
 of flat rolled steel division
- ✓ Holds 7 industrial facilities
- Soluções Usiminas' portfolio includes steel coils, coarse plates, rollers, welded assemblies, metal structures and metal disks and tubes, among other items

Capital Goods

Usiminas Mecânica

- ✓ High value-added products for the capital goods industry
- Major provider of creative solutions for the steel, mining, automotive, energy, petrochemical, among other industries
- Key products: industrial equipment, heavy steel structures, steel bridges and viaducts, cast steel pieces, railway wagons, blanks and stamped products.
- ✓ Industrial plants in Ipatinga
- ✓ On 06/24/20, the restructuring of the Business was approved.

Mining

Overview

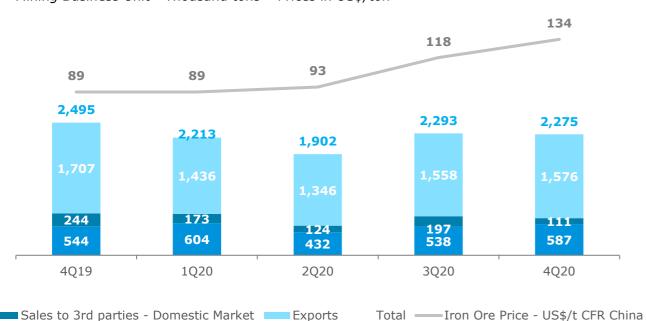

- JV formed in 2010 through a partnership with Sumitomo Corporation (30% economic stake) responsible for mining and railway operations
- Three mining sites in the Serra Azul region (MG), with resources of 2.4 billion tons of iron ore
- Asset base also includes pellet and sinter feed processing plants
- Concluded investments that will expand the currently capacity to 12 mm tons/year
- The company also has voting equity stake of 20% of MRS Logística and a strategic field in Sepetiba Bay (RJ)

Key Projects

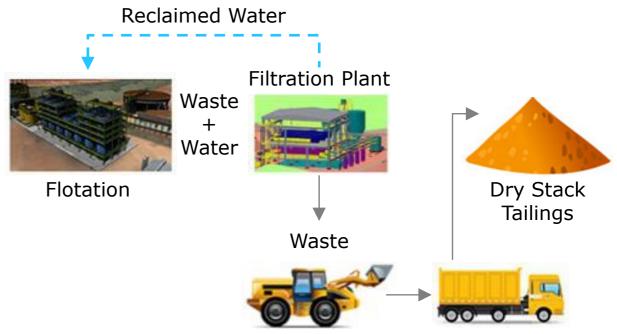

Friables

- ✓ Started operation in 2014
- ✓ Two iron ore processing plants
- ✓ Increased nominal capacity from 8 million to 12 million tons / year of iron ore
- ✓ Iron ore with better quality, higher concentration of iron content and lower impurity level

Dry Stacking (ongoing)

✓ MUSA is investing in the dry stacking technique. With an R\$160 million investment, the process will start operating in 2021.

Galvanized

- 1 According to the theoretical mix of sales in the implementation of the line.
- 2 Excluding the temporarily suspended capacities of Heavy Plates and Hot Strip Laminator #1 in Cubatão.

Key Projects

- ✓ Licensed in 2009
- Consists of an accelerated cooling process for heavy plates.
- ✓ The project enabled Usiminas' to meet specific requirements from Petrobras (application on pre-salt operation, besides the shipbuilding sector)
- Doubled the capacity to 1 million tons / year
- Expertise in ultra-high strength steel production (dual phase)
- ✓ Started operations in 2011

- ✓ Started operations in May 2015
- Metallurgical coke with adequate specifications for pig iron production in the blast furnace process
- Reduction of particle emissions, gases and volatile substances
- Coke gas to be used in the operational facilities of Ipatinga Mill and electricity generation
- ✓ Total capacity of coke plant of 1.4 million tons/year

- CONTRIBUTE TO THE LEADERSHIP OF USIMINAS IN THE GENERATION OF PATENTS IN BRAZIL

Steel mill with the largest number of patents in Latin America.

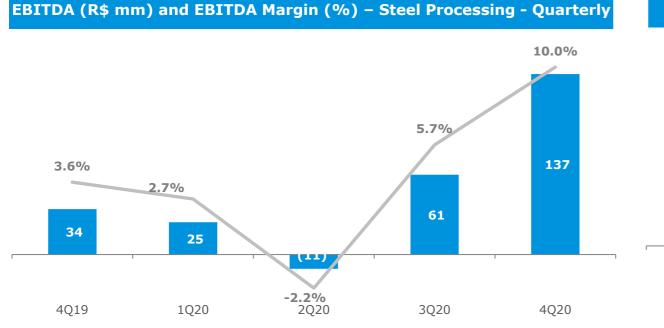

Annual R&D investment around R\$30million.

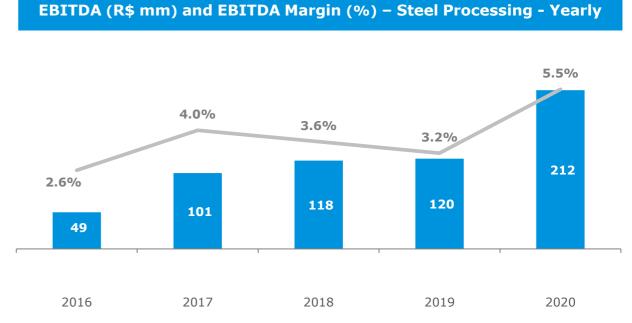

USIMINAS

Steel Processing

Overview - Soluções Usiminas

- Soluções Usiminas engages in steel transformation and distribution
- The company is controlled by Usiminas, that holds a 68.9% stake
- Its portfolio includes the production of steel coils, coarse plates, rollers, welded assemblies, metal structures and metal disks and tubes, among other items
- Located in seven different sites with an installed capacity to transform 1.9 million tons of steel per year

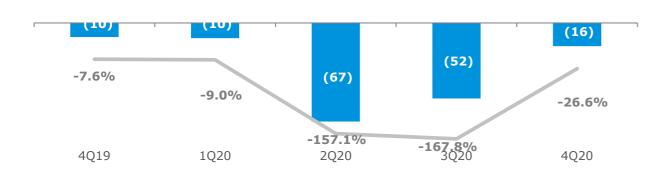

Capital Goods

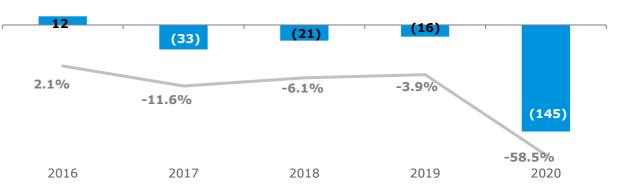

Overview - Usiminas Mecânica

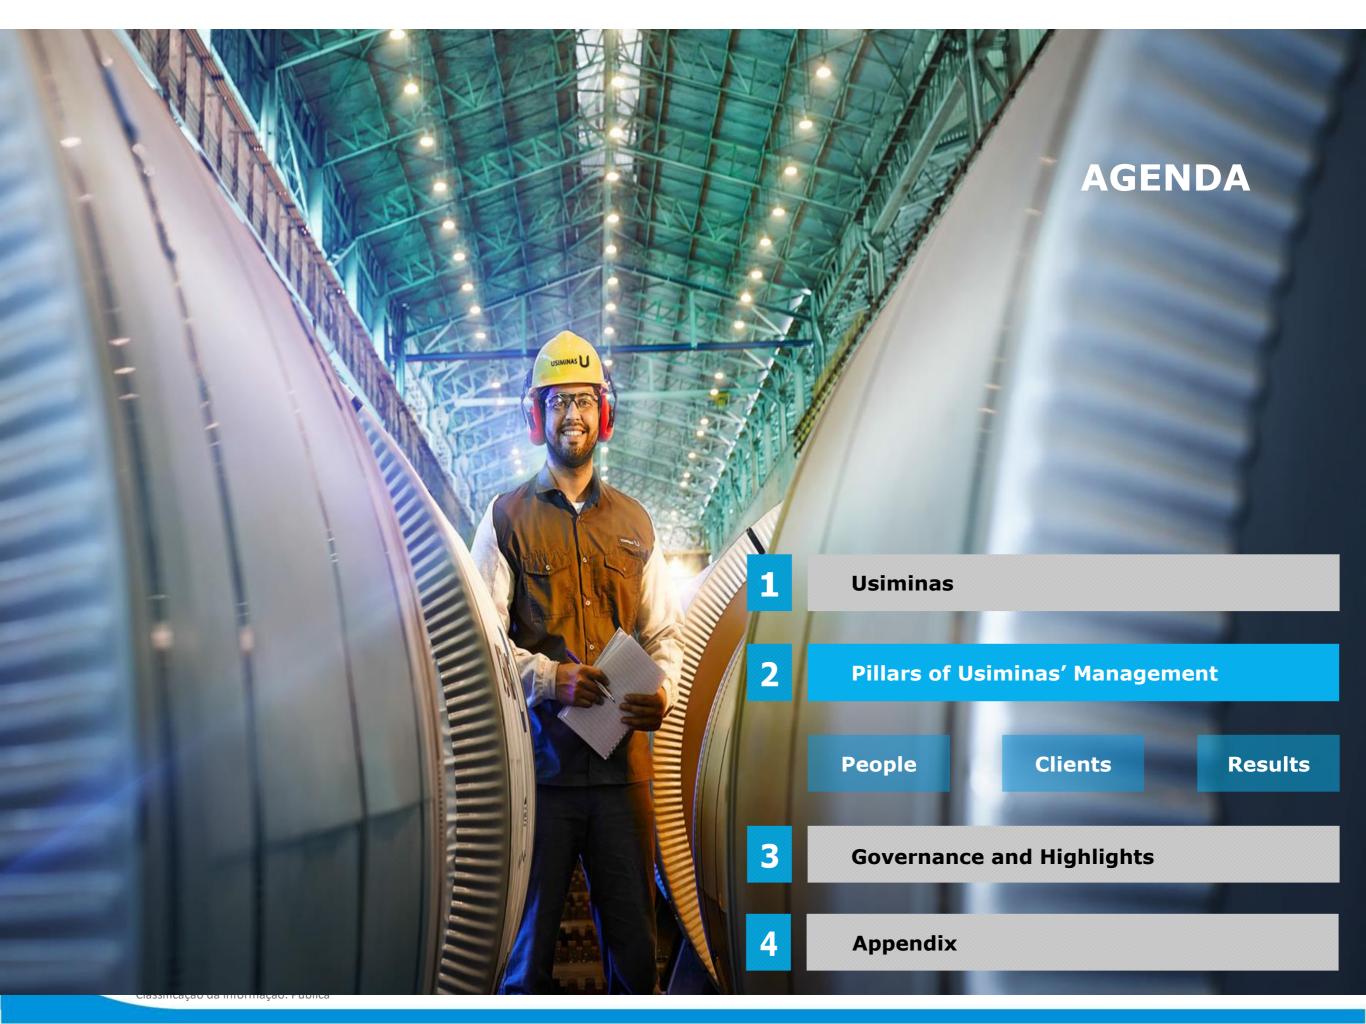

- Usiminas Mecânica is one of the main capital goods companies in Brazil
- It engages in the high-technology manufacturing of light, medium and heavy steel structures for projects in the oil & gas, construction, infrastructure, heavy industry and other major sectors
- Main industrial plant in Ipatinga (MG)

USIMINAS

Assets Strategically Located in the Country's Main Industrial and Logistic Axis in the Country

The location of Usiminas' assets allows for access to raw materials (e.g. iron ore), consumption centers and logistic terminals (railways, ports)

Seasoned and Specialized Management Team

Usiminas' Executive Board consists of professionals with deep knowledge in their respective areas

Sergio Leite de Andrade *CFO*

- Joined Usiminas in 1976 as Research Engineer, also working in several other areas in the company before being named CEO in 2016
- Holds a BS degree in Metallurgical Engineering by the Federal University of Rio de Janeiro (UFRJ) and a Master's degree in Metallurgical Engineering by the Federal University of Minas Gerais (UFMG)

Kohei Kimura

Technology and Quality Vice President Officer

- Prior to joining Usiminas, he worked at Nippon Steel & Sumitomo Metal Corporation
- Kohei Kimura holds M.Eng. in Metallurgy from Osaka University

Alberto Akikazu Ono

CFO and IR Vice President Officer

- Prior to joining Usiminas in 2009, he worked in other Mining & Metallurgy companies such as Aços Villares SA, CBMM, Votorantim Industrial and Votorantim Siderurgia
- Holds a Ph.D. in Metallurgy from The University of Tokyo and a M.Sc. in Metallurgical Engineering from the University of São Paulo

Miguel Angel Homes Camejo

Commercial Vice President Officer

- Prior to joining Usiminas, he was General Manager for the Andean Region of Ternium Colombia and Exports Manager at Ternium Sidor
- Graduated with a degree in Economy from Universidad Catolica Andres Bello, in Venezuela, and has completed different management programs at Chicago Booth and Stanford University in California, USA.

Américo Ferreira Neto

Industrial Vice President Officer

- He joined Usiminas as an apprentice at the age of 14.
 The professional path allowed Américo, in these three decades, to act in different areas until he was appointed VP Industrial in 2020
- Electrical engineer by Unisanta, with specialization in industrial automation by Unisantos and MBA in project management by FGV, Américo is a master's student in Electrical Engineering at the University of São Paulo (USP)

Yoshiaki Shimada

Corporate Planning Vice President Officer

- Pior being appointed VP of Corporate Planning, he served as a member of the Board of Directors of Usiminas.
 Before joining Usiminas, he worked in the Nippon group since 1986, with his last position as President and CEO of Nippon Steel North America, Inc.
- · Bachelor of Laws from Keio University.

Rating Agencies' Views

Comments from latest available rating reports

S&P Global Ratings

Moody's

FitchRatings

On July 15, 2019, S&P Global Ratings upgraded Usiminas to 'B+' from 'B' on global sale and to 'brAA' from 'brA+' on national scale.

"The company issued a \$750 million bond due 2026, proceeds from which Usiminas will use to amortize a significant part of its debt, in accordance with current creditors. Moreover, the cash sweep will be removed. All of these factors will improve the company's financial flexibility and liquidity, resulting in a very smooth debt amortization profile and lower interest burden for the next several years.

In addition, the recent surge in iron ore prices and mildly better conditions for the steel industry, including a slight increase in domestic demand, a still healthy premium over imported steel, which allows for price adjustments, as well as better sales mix, will bolster the company's FOCF. This will occur despite Usiminas' new investment cycle, including the modernization of a blast furnace at the Ipatinga plant and dry stacking process at the company's mining operations, which aims to increase its operating efficiency for the next years."

On July 1, 2019, Moody's upgrades Usiminas' ratings to Ba3/A2.br; stable outlook

"The ratings continue to reflect Usiminas' solid position in the Brazilian flat-steel market, and the measures taken to adjust operations to the feeble demand in the domestic market over the past few years, including the temporary halt of two blast furnaces in its Cubatão mill and interruption of activities of the primary areas of the Cubatão plant (including sinter and coke plants, blast furnaces and steelworks), concluded in January 2016. The downsizing process at the Cubatão steel mill has significantly reduced Usiminas' cost structure and production capacity, providing flexibility to the company amid the deterioration of the steel market in Brazil."

On July 1, 2019, Fitch Upgrades Usiminas and Rates New Issuance 'BB-'; Outlook Stable

"The upgrade reflects continued improvements in Usiminas' credit risk profile, supported by the deleveraging of its balance sheet, ample liquidity, and manageable cash outflows over the next three years. Usiminas is expected to refinance its debt, which is currently structured primarily on a secured basis and is exposed to a cash sweep mechanism as part of its 2016 debt restructuring agreement. Usiminas' ability to raise new unsecured debt at attractive costs aiming to refinancing most of the debt agreement would improve liquidity, financial flexibility and further improve its credit risk profile in the short term."

Declarations relative to business perspectives of the Company, operating and financial results and projections, and references to the growth of the Company, constitute mere forecasts and were based on Management's expectations in relation to future performance. These expectations are highly dependent on market behavior, on Brazil's economic situation, on the industry and on international markets, and are therefore subject to change.
