

Petrobras returns to the Dow Jones Sustainability Index

Rio de Janeiro, November 16, 2021 – Petróleo Brasileiro S.A. – Petrobras informs that it will once again integrate the Dow Jones Sustainability Index World (DJSI World) of S&P Global's Corporate Sustainability Assessment.

Petrobras received the highest score in the Materiality, Environmental Report, Water-Related Risks and Social Report criteria. The company also stood out in the criteria of Climate Change, Operational Eco-efficiency, Corporate Citizenship and Philanthropy, Labor Practices and Social Impact in the Community.

The DJSI World is one of the most important sustainability indexes in the world, which assesses the best social, environmental and economic management practices. The company had left the index in 2015.

The return to the DJSI World is an acknowledgment of Petrobras' efforts and environmental, social and governance initiatives. The company is committed to accelerating the decarbonization of its processes and products through new technologies, always acting in an ethical and transparent manner, with safety in its operations and respect for people and the environment.
