

## ***Petrobras launches new Investor Relations website***

Rio de Janeiro, April 9, 2020 – Petróleo Brasileiro S.A. – Petrobras informs that it has launched the new Investor Relations website aligned with the market's best practices. More modern and easier to navigate, the site presents new information and features such as a new front page that provides all the material content about the company, with highlights and links to the most important documents in each section, reducing the amount of clicks to get to the information.

In the new ESG (Environmental, Social and Corporate Governance) section, investors will have access to the main sustainability indicators in a consolidated way, the company's long-term strategies, reports and presentations, in addition to the new Controversies menu, bringing more information and transparency about environmental, social, and governance issues.

All sections of the site have been reorganized in order to make it easier for investors and analysts to find relevant data and to navigate. In addition to having the accessibility tool, we have improved access to information by creating pages that display documents in a more visual way.

Check out the new site [here](http://www.petrobras.com.br/ir).
