CENTRAIS ELÉTRICAS BRASILEIRAS S/A
CNPJ: 00.001.180/0001-26 | NIRE: 3330034676-7
PUBLICLY-HELD COMPANY

Centrais Elétricas Brasileiras S/A ("Company" or "Eletrobras") (B3: ELET3, ELET5 & ELET6; NYSE: EBR & EBR.B; LATIBEX: XELT.O & XELT.B) hereby informs its shareholders and the market in general that received from B3 – Brasil, Bolsa, Balcão, Official Letter 755/2023-SLS, transcribed below, requesting clarification regarding news published in the press.

Transcript of Official Letter B3 755/2023-SLS

"Centrais Elétricas Brasileiras S.A. - Eletrobras

At. Mrs. Elvira Baracuhy Cavalcanti Presta

Investor Relations Officer

Ref.: **Request for clarification on news published in the press**

Dear Sirs,

In news published by Estadão Broadcast+, on 06/02/2023, under the title "ELETROBRAS/WILSON FERREIRA: ELETROBRAS CAN INVEST 4 TIMES MORE THIS YEAR", it states, among other information, that "Eletrobras envisages being able to invest up to 4 times more this year, in relation to the approximately R\$ 4 billion that the company used to invest annually when it was state-owned, highlighted the president of Eletrobras, Wilson Ferreira Jr, just now, during participation in the Brazilian Forum of Leaders in Energy."

We request clarification on the marked item, until 06/05/2023, with your confirmation or not, as well as other information considered important."

In response to said demand, the Company informed, through the Relevant Fact disclosed on August 1, 2020 to announce the 2020-2035 Strategic Plan, that the privatization of the Company would lead to investments in the order of R\$ 12.6 billion a year. Considering that Eletrobras was, until the privatization, making annual investments of around R\$ 4 billion per year, the numbers mentioned in the report are correlated with such information previously disclosed.

The increase in the Company's investment capacity is related to the decotization of its hydroelectric plants and the new concession contracts, entered into within the scope of the privatization process and regulated by Law 14,182/2021, which granted the Company new concessions for another 30 years under the regime independent producer; as well as the projects disclosed within the scope of its Transformation Plan, through announcements, relevant facts, proposals for the management of shareholders' meetings and presentation of results, all duly registered with the CVM, such as reduction of legal liabilities, corporate restructuring, among others others.

In addition, the increase in investments is also associated with the exchange of equity interests, which have been carried out by the Company, which will provide for the consolidation of Ebitda and also new investments in the sector. Such transactions and their respective effects were also subject to the due report to the market, under the terms of CVM Resolution 44, as is the case of the acquisitions involving

Santo Antonio Energia S.A, Baguari, Retiro Baixo and Teles Pires.

In this context, the presentation of the Company's results for the first quarter of 2023 ("1Q23"), released on May 5, 2023, also highlighted such an increase in the level of investments in the year, which went from R\$ 553 million in 1Q22 to 1.6 billion in 1Q23.

Thus, Eletrobras understands that there is no additional information to be provided, since the explanation given by the President of the Company on the increase in the company's investment capacity had already been the subject of extensive previous disclosure.

Rio de Janeiro, June 05, 2023.

Elvira Cavalcanti Presta
Vice President of Finance and Investor Relations
