

## Eletrobras has its credit rating upgraded by Moody's

Rio de Janeiro, May 19, 2025, Centrais Elétricas Brasileiras S/A – Eletrobras informs that, on this date, the credit rating agency Moody's upgraded the Company's global scale credit rating from Ba2 to Ba1 and its baseline credit assessment (BCA) from ba3 to ba2. The outlook remains stable for both ratings.

The ratings' upgrade reflects the evidences that Eletrobras continues to make sustainable progress on its corporate strategy to improve profitability. It also considers the recent resolution on pending negotiations with the government around disputes emerging from the company's privatization, along with Moody's view that the company will maintain its ample liquidity to support investments with the absence of meaningful refinancing needs over the next three to five years of the forecast period.

The rating agency's report is available on the Company's website (https://ri.eletrobras.com/) and at CVM (<u>https://www.cvm.gov.br</u>).
