Closing of the Asset Swap with Eletrobras

COPEL (“Company”) hereby informs its shareholders and the market in general that, in continuity with what was published in Material Fact No. 12/24, on the date hereof it has concluded assets swap between its wholly-owned subsidiary Copel Geração e Transmissão S.A. (“Copel GeT”) and Centrais Elétricas Brasileiras S.A. - Eletrobras and its wholly-owned subsidiary Eletrobras CGT Eletrosul (in any case, “Eletrobras”) (“Transaction”), after fulfilling all the conditions precedent set forth in the Transaction.

As a result, Copel GeT now consolidates in its portfolio all of its stakes in the Mauá Hydroelectric Power Plant and the Mata de Santa Genebra S.A. transmission company and, at the same time, completes the full transfer of its stake in the Colíder Hydroelectric Power Plant to Eletrobras, in accordance with the terms previously agreed. The transaction involved a cash payment of R\$ 196.6 million to Eletrobras, already taking into account all the adjustments provided for in the agreement, including cash generation from the assets and the receipt of dividends. With this, the total amount of the disbursement reaches the R\$ 365.0 million initially stipulated in the terms of the transaction.

This move is part of COPEL's strategy to continually optimize its portfolio and generate value for its shareholders..
