

Petrobras signs 8 Production Sharing Contracts in Côte d'Ivoire

Rio de Janeiro, September 17, 2026 – Petróleo Brasileiro S.A. – Petrobras, further to the press release issued on June 4, 2025, informs that its wholly-owned subsidiary Petrobras Netherlands B.V. (PNBV) has signed, with the Republic of Côte d'Ivoire and PETROCI Holding, Production Sharing Contracts (PSCs) for eight offshore exploration blocks located in the Republic of Côte d'Ivoire.

The PSCs cover the offshore blocks CI-513, CI-600, CI-601, CI-602, CI-603, CI-605, CI-701 and CI-702. Petrobras, through PNBV, will hold a 90% interest in the blocks as operator, while PETROCI Holding will hold the remaining 10% interest.

The contracts secure Petrobras' participation in high-potential exploration areas along the African equatorial margin.

This initiative is aligned with Petrobras' strategy of replenishing its oil and gas reserves through the exploration of new frontiers, both in Brazil and abroad, as set out in its Business Plan. The assessment of new opportunities seeks to diversify the company's exploration portfolio, promoting value creation and the long-term sustainability of its business.
