

AXIA ENERGIA

AXIA Energia secures contract in the 2026 capacity auction

Rio de Janeiro, March 19 , 2026 – Centrais Elétricas Brasileiras S/A – Eletrobras (“Company” and “AXIA Energia”) and AXIA Energia Nordeste S.A. (“AXIA Energia Nordeste”) informs that it successfully acquired 190.129 MW of capacity in the 2026 Capacity Reserve Auction – LRCAP, promoted by the National Electric Energy Agency and the Electric Energy Trading Chamber, in accordance with the guidelines set forth by the Ministry of Mines and Energy, held on March 18, 2026, as per the table below.

Company	Power Plant	Price (R\$/MW.year)	Contracted Capacity (MW)	Supply start date	Term
AXIA Energia Nordeste	Expansion Luiz Gonzaga (Itaparica) HPP	1,400,000	190.129	08/01/2031	15 years

The investment amount is approximately R\$ 1.0 billion, allocated to the construction of a new generating unit at the Luiz Gonzaga Hydroelectric Power Plant, with an additional 246.6 MW of installed capacity.

With the auction result, AXIA Energia strengthens its leading position in the renewable energy generation market, with a focus on capital allocation discipline.
