## Copel DIS's billed increased by 7.2% in 2Q26 Year-to-date growth stands at 4.6%

COPEL ("Company") hereby informs its shareholders and the market in general:

### Distribution - Grid Market

The **billed grid market**, which deducts part of the energy offset by Mini and Micro Distributed Generation (MMGD), grew by **7.2% in 2Q26**. Electricity consumption in Copel Distribuição's grid market **increased by 7.3%** compared to the same period last year.

This result stems primarily from increased consumption in the **residential and commercial segments**, driven mainly by **greater economic activity in the concession area, growth in the customer base** over the period, and **higher temperatures** at the beginning of 2Q26 compared to those observed in 2Q25.
