MESSAGE FROM MANAGEMENT

With the adoption of the most

modern technologies available,

we have been using, since

February 2023, the dry stacking

method to dispose of 100% of

mining tailings in Minas Gerais

Gerais.

The first quarter of 2023 was marked by a complex global macroeconomic scenario. External issues, such as a possible global recession, the continuation of the conflict between Russia and Ukraine, inflation and interest rates at high levels and financial market stress due to credit crunch, indicates that the scenario requires a cautious stance. In Brazil, the sectors' indicators behavior, driven by high interest rates, inflationary pressure, and expectation in the advance of the tax reform and tax framework show uncertainties as to acceleration of economic activity and consumption recovery.

Even amid this global challenging scenario, Gerdau continues to deliver solid financial results, demonstrating its ability to transform and innovate. The Company registered in the first quarter its second-best adjusted EBITDA ever for the period at R\$ 4.3 billion, up 19.1% on the last quarter of previous year.

Adjusted Net Income came to R\$ 2.4 billion in the quarter, 79.1% higher than in 4Q22. This performance reflects a stable demand for steel in the first months of the year, as well as the resilience of our business models, in addition to the Company's and innovative mindset, centered on the challenges and needs of its customers and other stakeholders. This strong financial result reflects the efforts of our teams in the continuous pursuit of operational excellence. All of our Business Divisions (BD) showed, in the period, an important resumption

of physical steel sales and a reduction in costs, which resulted in improved margins compared to the fourth quarter of 2022.

Regarding our North America BD, the results registered in the first quarter confirm this market's resilience. We have observed that the demand for steel has been positively influenced by the level of activity in the construction industry, which should grow over 6% in 2023, according to external estimates. Despite the signs of slowdown in the U.S. economy and steel demand, infrastructure projects of the industrial, sanitation, renewable energy and oil & gas sectors remain at healthy levels, with increased production and sale volumes. Even at their early stages, the governmental packages have been stimulating consumption (reshoring, infrastructure) in a scenario of consolidated supply and protection against imports.

In Brazil BD, we continue to seize opportunities in domestic and external markets. Although the Company has registered in the first quarter shipments 11.5% higher than in the fourth quarter of 2022, we observed a beginning of year with sales recovery, influenced by a macroeconomic scenario that deserves attention. The construction, residential and commercial sectors remain at healthy levels, maintaining a good portfolio of orders for the coming months. Similarly, and following the South-American scenario, the South America BD keeps good level of activities in the construction and energy sectors.

As for Special Steel BD, we have observed an 11.5% decrease in demand compared to the last quarter of 2022, due to the lower shipments in Brazil, partially offset by the U.S. market expansion. This result is mainly explained by the outage in Brazil's main auto assemblers, announced during this quarter, due to higher costs

of credit and population's lower purchasing power, in addition to lack of inputs (mainly semiconductors) for some segments.

We continue to invest in initiatives on modernization and technological updating of our operations, seeking ongoing improvement in profitability and productivity of our assets, in addition to increasing the supply of products and solutions of higher value added for our clients. This quarter, we invested R\$ 954 million in CAPEX, of which R\$676 million in maintenance and R\$ 279 million in expansion and technological

CONSOLIDATED RESULTS

OPERATING PERFORMANCE

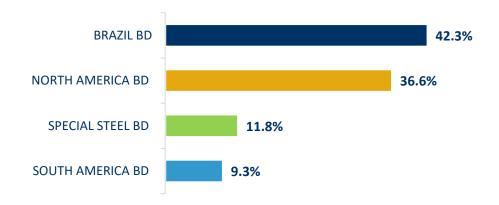

PRODUCTION & SHIPMENTS

CONSOLIDATED	1Q23	4Q22	Δ	1Q22	Δ
Volumes (1,000 tonnes)					
Crude steel production	2,988	2,866	4.2%	3,406	-12.3%
Shipments of steel	2,979	2,672	11.5%	3,055	-2.5%

In 1Q23, Gerdau's crude steel production was 3.0 million tonnes, up 4.2% from 4Q22 and down 12.3% from the same period last year. The production capacity utilization rate of 71% reflects the higher demand in the quarter, mainly in North America BD.

Steel shipments in 1Q23 were 3.0 million tonnes, up 11.5% and down 2.5% in relation to 4Q22 and 1Q22, respectively. Although the first quarter typically registers higher shipments than year-end, we have observed in the beginning of 2023 no growth in steel apparent consumption in Brazil (for both Brazil BD and Special Steel BD), reflecting an economic scenario that still requires caution, with high interest rates and a more contractionary monetary policy, which may affect some business lines.

SALES SEGMENTATION PER BD - 1Q23

FINANCIAL PERFORMANCE

NET SALES

In 1Q23, Net Sales totaled R\$ 18.9 billion, up 5.1% from 4Q22 and down 7.2% from the same period last year.

Net Sales per tonne came to R\$ 6,335 in the quarter, down 5.8% on 4Q22, mainly explained by the lower parity with imported products in the Brazilian domestic market. However, despite the lower net sales per tonne, the increase in shipments in the main markets and sectors in which the Company operates led to higher Net Sales in 1Q23 compared to the previous quarter.

GROSS PROFIT

Cost of Goods Sold totaled R\$ 15.2 billion in the period, up 1.4% from the previous quarter. This variation reflects the 11.5% increase in steel shipments, resulting in a higher dilution of fixed costs. Year over year, Costs of Goods Sold increased 0.6% in relation to 1Q22, due to lower shipments by 2.5% in the period.

CONSOLIDATED	1Q23	4Q22	Δ	1Q22	Δ

Gross Margin	19.2%	16.3%	2.9 p.p	25.5%	-6.3 p.p

Gross Profit came to R\$ 3.6 billion in the quarter, up 23.9% compared to the previous quarter. This result reflects the better balance among the results from our Business Divisions (BD), driven by the continuity of a strong demand (reshoring, nearshoring and infrastructure) and protection from U.S. market imports.

SELLING, GENERAL & ADMINISTRATIVE EXPENSES

Selling, General and Administrative (SG&A) Expenses amounted to R\$ 538 million in 1Q23, down 13.6% from 4Q22 and up 8.8% from 1Q22. As a ratio of Net Sales, SG&A Expenses was 2.8%, down 0.6 p.p. on 4Q22. This result shows once again Gerdau's discipline in maintaining its expenses at healthy levels.

In 1Q23, Adjusted EBITDA came to R\$ 4.3 billion, up 19.1% from previous quarter, with EBITDA Margin of 22.9% in the period (+2.7 p.p. compared to 4Q22). In relation to 1Q22, Adjusted EBITDA decreased 25.8%, mainly due to record results obtained in that quarter. This result was the Company's second highest EBITDA ever for a first quarter and ratifies Gerdau's solid business model, supported by flexibility, geographical diversification and combination of its Business Divisions.

The Financial Result was negative R\$ 50 million in 1Q23, due to the non-recurring effects from tax credit adjustments (R\$ 253 million) and lower financial expenses, despite the scenario of high interest rates globally, which shows the Company's process to reduce gross debt over the last years. Comparing 1Q23 and 4Q22, the higher income from financial investments, which was partially offset by exchange variation, contributed to a better Financial Result.

ADJUSTED NET INCOME

Adjusted Net Income was R\$ 2.4 billion in the quarter, increasing 79.1% in relation to 4Q22, due to higher operating results, and decreasing 18.8% compared to 1Q22.

- 1 Total capitalization = shareholders' equity + gross debt interest on debt. 2 Net debt = gross debt interest on debt cash, cash equivalents and financial investments. 3 Adjusted EBITDA in the last 12 months.

The Company maintains its long debt maturity profile, with 78% of its liabilities coming due in the long term. Its debt is 74% denominated in U.S. dollar, 22% in Brazilian real and 4% in other currencies. On March 31, 2023, Gross Debt stood at R\$ 12.3 billion, down 2.7% and 4.0% on previous quarter and the same period of 2022, respectively.

The cash position ended the quarter at R\$ 5.8 billion, resulting in a Net Debt of R\$ 6.4 billion and a Net Debt/EBITDA ratio of 0.31x, maintaining a very comfortable financial level.

DEBT (R\$ BILLION) & LEVERAGE RATIO

The weighted average nominal cost of Gross Debt was 7.4% p.a. and the average debt term of 7.2 years attests to a debt maturity schedule that is well balanced and well distributed over the coming years.

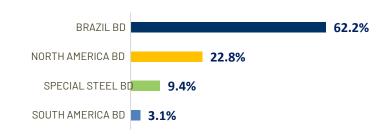

INVESTMENTS (CAPEX)

On February 28, 2023, the Board of Directors of Gerdau S.A. approved the projection of disbursements related to the investment plan $\ ^{(*)}$ for the current year in the amount of R\$ 5 billion.

In 1Q23, CAPEX amounted to R\$ 954 million, of which R\$ 667 million were allocated to Maintenance and R\$ 287 to Expansion and Technological Updating. Of the total disbursements in the quarter, approximately 48.8% was allocated to the state of Minas Gerais, Brazil.

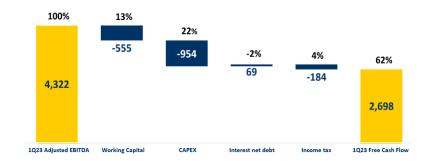

(*) The investment plan does not include contributions made by Gerdau Next in other companies, as established by international accounting standards (IFRS).

GOVERNANCE AND CAPITAL MARKETS

CAPITAL INCREASE WITH SHARE BONUS

On February 28, 2023, the Board of Directors of Gerdau S.A. approved capital increase to R\$ 20,289,409,000.00 by capitalizing profit reserves in the amount of R\$ 966,162,334.00, with the issue of 83,669,860 new book-entry shares without par value, of which 28,596,497 are common shares and 55,073,363 are preferred shares, attributed to shareholders as bonus, at the ratio of one (1) new share for each twenty (20) shares of the same type based on shareholders of record on March 21, 2023. To comply with article 58, paragraph 1, of Normative Instruction 1,585/15 issued by the Federal Revenue of Brazil, the cost attributed to bonus shares was R\$ 11.54731631 per share. The new shares will be credited to shareholders on March 24, 2023. Further details are presented in Note 17 of the Financial Statements.

DIVIDENDS

On May 2, 2023, the Board of Directors of Gerdau S.A. approved the payment of interest on equity in the amount of R\$ 892 million (R\$ 0.51 per share). The payment will be made on May 29, 2023, based on shareholders of record on May 15, 2023, being *ex*-dividends on May 16, 2023.

Management reaffirms its understanding that the best way to increase absolute dividends is through strong cash generation, which it has been delivering, enabling it to maintain its policy of distributing at least 30% of Adjusted Net Income. This flexibility, including in the regularity of distribution, enables the Company to deliver value in different scenarios in order to increasingly create value for shareholders.

SHARE BUYBACK PROGRAM

On May 5, 2022, Gerdau S.A. announced a share buyback program for the acquisition of up to 55,000,000 preferred shares, representing approximately 5% of the free-float preferred shares, with maximum duration of 18 months. Further details are presented in Note 17 of the Financial Statements.

At the end of 1Q23, the Company repurchased 44,564,000 preferred shares at an average price of R\$ 24.08/ share, corresponding to 81.0% of the buyback program. All shares repurchased were canceled in November 2022, which included canceling an additional 1,697,538 common shares that were held in treasury.

PERFORMANCE BY BUSINESS DIVISIONS (BD)

Gerdau presents its results in four Business Divisions (BD).

BRAZIL BD – includes the operations in Brazil (except special steel) and the iron ore operation;

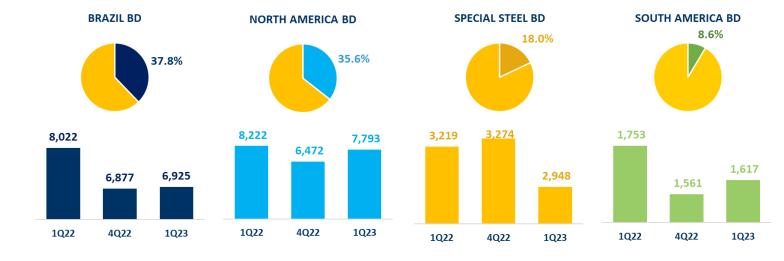

NORTH AMERICA BD – includes all operations in North America (Canada and United States), except special steel, as well as the jointly controlled company in Mexico;

SPECIAL STEEL BD – includes the special steel operations in Brazil and the United States, as well as the jointly controlled company in Brazil;

SOUTH AMERICA BD – includes all operations in South America (Argentina, Peru and Uruguay), except the operations in Brazil, and the jointly controlled companies in Colombia and the Dominican Republic.

QUARTERLY RESULTS - 1Q23

Net Sales in the period were R\$ 6.9 billion, up 0.7% from 4Q22, mainly explained by the gradual resumption of shipments in the domestic market. When compared to the same quarter of last year, Net Sales decreased 13.7%, reflecting the lower prices. This quarter, the Company directed 85% of its shipments to domestic markets, compared to 78% in 1Q22. Net Sales per tonne stood at R\$ 5,422, down 9.2% from 4Q22, considering the lower parity with imported material during the quarter.

Cost of Goods Sold decreased 3.9% in the quarter compared to 4Q22, explained by higher shipments and lower accounting costs with ore, coal and natural gas. Compared to 1Q22, the decrease in Cost of Goods Sold is due to the lower costs with metallic alloys, electricity and scrap, despite the lower shipments that reduced the dilution of fixed costs. Cost per tonne sold was R\$ 4,723, down 13.4% on 4Q22.

Gross Profit in 1Q23 totaled R\$ 894 million, up 48.4% compared to the previous quarter and down 50.2% from 1Q22, due to the aforementioned reasons.

As a result, the Brazil BD registered Adjusted EBITDA of R\$ 1.064 billion in 1Q23, advancing 40.5% from 4Q22. Compared to 1Q22, Gross Profit decreased 45.5%.

In 1Q23, crude steel production at the North America BD increased 16.0% in relation to 4Q22 and decreased 2.3% in relation to 1Q22. Total shipments in 1Q23 grew 24.5% compared to 4Q22, due to a resilient demand driven by US government programs to encourage steel consumption. The distribution and construction sectors, which accounted for 55% and 25% of shipments, also contributed to this positive result. Compared to 1Q22, shipments in 1Q23 remained stable, increasing 0.9%.

In 1Q23, capacity utilization rate of the rolling process was 93%, near its full capacity.

In 1Q23, Net Sales totaled R\$ 7.8 billion, up 20.4% from 4Q22, due to higher shipments, and down 5.2% from 1Q22. Net Sales per tonne were R\$ 7,059 in the quarter, down 3.3% from 4Q22, influenced by the metals spread;

The 14.5% increase in Costs of Goods Sold in 1Q23 compared to 4Q22 was due to the increase in scrap and higher volumes. Costs per tonne sold was R\$ 5,297 the quarter, down 8.0% from 4Q22, due to higher dilution of shipments.

Gross Profit was R\$ 1.9 billion in the quarter, 42.4% higher than in 4Q22, reflecting the strong increase in Net Sales compared to Cost of Goods Sold in the period. Compared to 1Q22, Gross Profit decreased 17.8%.

Adjusted EBITDA in 1Q23 was R\$ 2.4 billion, with Adjusted EBITDA margin of 30.2%, up 2.0 p.p. from 4Q22. This result reflects the market's favorable moment combined with the Company's ongoing segmentation strategy and cost control efforts.

SPECIAL STEEL BD

PRODUCTION & SHIPMENTS

SPECIAL STEEL BD	1Q23	4Q22	Δ	1Q22	Δ
Volumes (1,000 tonnes)					
Production of crude steel	397	406	-2.4%	494	-19.7%
Shipments of steel	355	401	-11.5%	418	-15.0%

In 1Q23, crude steel production at the Special Steel BD decreased 2.4% and 19.7% from 4Q22 and 1Q22, respectively, reflecting the weaker demand for special steel in Brazil.

Total shipments in 1Q23 decreased 11.5% compared to 4Q22, mainly due to the announcement of temporary outage of some auto assemblers in Brazil, resulting from the more challenging macroeconomic scenario and the consequent weaker demand, as well as the lack of inputs. Year over year, the reduction is explained by the impact on the heavy vehicle sector from the anticipation of orders for Euro 5 trucks and buses, produced until December 31, 2022.

In Brazil, according to the National Association of Vehicle Manufacturers (ANFAVEA), outages in auto assemblers in the first quarter of 2023 resulted in an impact of 35,000 units, including light and heavy vehicles. For 2023, despite the scenario of uncertainty, ANFAVEA reaffirmed its growth forecast of approximately 4% for light vehicle production compared to the previous year. The agricultural machinery sector should maintain its positive scenario and should expand 4%, given the fleet modernization amid good harvest levels.

For the National Trade Union of Auto Vehicle Parts Industry (Sindipeças), the fleet is increasingly aging, and the average age of vehicles has receded by almost three decades in Brazil. According to studies conducted by the Sindipeças, the reduction in sales in the sector started before the pandemic period and the current sales of new vehicles have not been sufficient to compensate the car obsolescence, which have still been used due to consumers' lower purchasing power.

In the United States, the CHIPS Act, plan approved by the government, will support the installation of semiconductor factories in the country in the coming years, which will solve the chip shortage in the vehicle market. The manufacturing and sale of vehicles have been recovering, but still at levels below the historical average. Production of trucks, for example, increased almost 30% in February in relation to the previous year, to nearly 50,000 units, according to data from local automotive association. The production of heavy vehicles should reach approximately 300,000 units this year, while production of light vehicles should exceed 15 million. Moreover, oil & gas segment continues its uptrend and should reach the monthly mark of 1,000 rig counts in the next months.

In the quarter, Net Sales were R\$ 3.0 billion (-9.9% vs. 4Q22 and -8.4% vs. 1Q22). Gross Profit was R\$ 430 million in the quarter (+2.6% vs. 4Q22 and -30.5% vs. 1Q22). The results were mainly influenced by lower shipments in Special Steel operation in Brazil, as explained earlier.

The operation's Adjusted EBITDA decreased 5.2% and 28.1% in relation to the previous quarter and the same quarter of previous year, respectively, mainly explained by the strong comparison base, when the operation registered its second best result ever. Adjusted EBITDA margin in the quarter stood at 16.9%, which was in line with the previous quarter, but decreased 4.6 p.p. compared to the last year.

^{1.} Includes resale of products imported from Brazil BD

Crude steel production at the South America BD was 149,000 tonnes in the quarter, down 20.7% from 4Q22 and 13.4% on the same quarter last year, mainly affected by rainfall and political instability in Peru. Steel shipments in 1Q23 were 281,000 tonnes, down 3.0% from 4Q22 and 15.4% on the previous year.

Despite the lower shipments, perspectives for the countries where Gerdau operates remain positive. The construction sector remains buoyant in the markets in which we operate. In Argentina, steel demand in the construction, agribusiness and energy sectors have been stimulating shipments in the local market. In Uruguay, shipments are returning to historical levels, after a period of large infrastructure works in the country. In Peru, despite the local political and economic uncertainties, steel demand remains at high levels, driven by the construction industry, which resulted in a 9% increase in local market's shipments in the fourth quarter compared to the previous quarter.

In 4Q22, the South America BD delivered Net Sales of R\$ 1.6 billion, increasing 3.6% sequentially, due to inflation on sales prices. Year over year, Net Sales contracted 7.8%.

Cost of Goods Sold was R\$ 1.2 billion in the quarter, increasing 0.2% in relation to 4Q22. Compared to 1Q22, Cost of Goods Sold decreased 11.4%.

Considering the effects mentioned above in Net Sales and Costs, the operation registered Gross Profit of R\$ 373 million in the quarter, up 16.8% from 4Q22 and 7.1% on 1Q22.

The BD's Adjusted EBITDA was R\$ 489 million, up 38.3% and 1.3% from 4Q22 and 1Q22, respectively. The highlight was the better performance and contribution of joint-ventures in the Dominican Republic and Colombia in the Business Division's consolidated result. Adjusted EBITDA margin was 30.2% in the quarter, up 7.6 p.p. and 2.7 p.p. sequentially and year over year, respectively.

WHO WE ARE

LARGEST BRAZILIAN STEEL PRODUCER COMPANY

Gerdau is Brazil's largest producer of steel, a leading producer of long steel in the Americas and one of the world's leading suppliers of special steel. In Brazil, Gerdau also produces flat steel and iron ore, activities that expand its product mix and leverage the competitive advantages of its operations.

Gerdau also is the largest recycler in Latin America and, around the world, transforms each year millions of tonnes of scrap into steel, underlining its commitment to the sustainable development of the regions where it operates. The shares of Gerdau companies are listed on the São Paulo (B3), New York (NYSE) and Madrid (Latibex) stock exchanges.

For more information, go to the Investor Relations website: https://ri.gerdau.com/

DIVISIONS (BDs)

GERDAU PRESENTS ITS RESULTS IN FOUR BUSINESS DIVISIONS (BD):

BRAZIL BD - includes the operations in Brazil (except special steel) and the iron ore operation;

NORTH AMERICA BD – includes

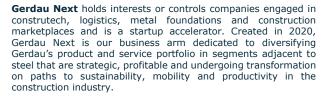

all operations in North America (Canada and United States), except special steel, as well as the jointly controlled company in Mexico:

SOUTH AMERICA BD - includes all operations in South America (Argentina, Peru and Uruguay), except the operations in Brazil, and the jointly controlled companies in Colombia and the Dominican Republic;

SPECIAL STEEL BD - includes the special steel operations in Brazil and the United States, as well as the jointly controlled company in Brazil.

IN ADDITION, THE COMPANY HAS NEW BUSINESS ARMS, IS A LEADING RECYCLER, HAS FORESTS AND INVESTS IN ENVIRONMENTAL AND SOCIAL PROJECTS:

>> **Newave** Energia, which is part of Gerdau Next, is an operation that invests in power generation greenfield projects with capacity of approximately 2.5 GW, exclusively from solar or wind sources, which should start generation by 2025 and 2026, and in brownfield projects and in electricity trading activities, whether in the retail or directional modes and/or prepayment transactions.

>> **Addiante** is a joint venture formed by Gerdau Next and Randon Serviços e Participações Ltda., whose purpose will be to delivery solutions that meet the needs of cargo carriers or shippers, providing truck and semi-trailer rental services and other products related to cargo transportation and handling.

In connection with the entrepreneurship ecosystem, we have a startup accelerator, **Gerdau Next Ventures**, with professionals based in Silicon Valley, California, whose mission is to foster shared experiences and partnerships with the region's innovation ecosystem.

Gerdau has two iron ore mines located in the state of Minas Gerais, which supply the integrated mill of Ouro Branco-MG and sell a portion of the volume produced.

We are Latin America's largest recycler of steel scrap, transforming 11 million tonnes every year, with 73% of our steel made from the material.

We have 250,000 hectares of renewable eucalyptus forests in Minas Gerais. Of this total, 91,000 hectares are set aside for the conservation of native forests, which is an area larger than the city of São Paulo. Currently, Gerdau is the world's largest producer of charcoal, which is used as bioreducer to manufacture pig iron.

Aware of our social and environmental responsibility, our investments include contributions to 456 projects in housing, recycling and entrepreneurship education, with around 2,000 volunteer employees.
